Kent County Council, working with the local health services and schools to support their children & young people and families, has set out plans to improve educational, health and emotional wellbeing outcomes for Kent’s children and young people with Special Educational Needs (SEN) and who are disabled children (SEND).

You are invited to give your views on whether the Strategy is proposing to do the right things:

- Better educational outcomes and improved quality of health & social care services
- Developing more local provision
- Ensuring services are continuous from birth to age 25
- Having more integrated services for disabled children
- Address the gaps in current service provision

The Strategy and an online response form is available at [www.kent.gov.uk/SEND](http://www.kent.gov.uk/SEND)

Responses can also be sent by post to SEND Strategy, Room 2.40a, Sessions House, Maidstone Kent ME14 1XQ

Or email to: SENDstrategy@kent.gov.uk

Consultation closes at midday on 3 June 2013.

Alternative formats are available on request
