Highway Works in Your Area

B2163 Heath Road, Coxheath

Alternative Traffic Calming Scheme

What are we planning to do?

We are planning to remove all of the existing build outs and the associated signing and lining. Then we are to install two new build outs at the entrance to the village (one either end) along with various drop kerb crossing points, bus stop improvements, the installation of two new interactive signs, and other general signing, lining and surfacing works throughout. In addition we propose to install a new humped zebra crossing facility in the centre of the village and to upgrade the existing one to match. A scheme plan can be seen on the website http://consultations.kent.gov.uk/consult.ti/Coxheath

Why do we want to do this work?

KCC and the Parish Council have agreed to jointly fund a new scheme developed from the draft URS scheme consulted on in November 2013.

How will we carry out the works and how will it affect you?

The majority of the works will be carried out under temporary two-way traffic lights. There will be a number of road closures required where existing road widths do not allow for safe working practices to be followed without. The proposed diversion route for the closures will be via the A229 Linton / Loose Road, Sheals Crescent, Old Tovil Road, B2010 Farleigh Hill and Dean Street.

When will the work start and how long will it take?

The works will take 6 weeks to complete. They are due to start in Heath Road on Sunday 3rd August and are expected to be complete by Friday 12th September.

Road closures are currently scheduled for the following dates:
30/08/14 for 1 night,
31/08/14 for 1 night and day,
03/08-30/08/14 2 way lights to be used as and when needed for Heath Road.

How to contact us?

Visit our website www.kent.gov.uk/highways to find out how we look after the roads in Kent. If you have any concerns about how these road works will affect you please call us on 03000 418181 and quote “Coxheath Traffic Calming”.

Please respect our workers space and safety by driving carefully and slowly through the roadworks. Feedback from our workers shows that too many drivers go too fast through roadworks. Everyone is entitled to a safe workplace. Our men and women work next to moving traffic and risk injury every day.

Please keep this in a safe place so you can refer to it if you need to contact us whilst the works are being done – call us on 03000 418181

WARNING – Beware Bogus Callers

Kent County Council Highways & Transportation do not allow works to be carried out on private properties. If anyone says they are working for us or our specialist contractors and offer to carry out any work for cash they should be treated with caution and you are advised to contact Kent County Council Trading Standards on 0845 3450210, 24 hours a day, seven days a week.
