Consultation

KCC is proposing to install a Zebra Crossing on New Street to help pedestrians to cross the road between Ropewalk and Mill Wall. As a result the start of the 20mph speed limit would be moved to south of St George’s Road.

Why do we need to make changes?

This scheme follows on from the ‘Which way for Sandwich’ report produced in summer of 2016 which aimed to improve the pedestrian experience, calm traffic speeds and protect the historic environment in Sandwich.

In this particular location pedestrians can struggle at times to cross the road safely due to the volume and speed of traffic. There are also large number of school children crossing the roads.

What are we proposing?

- Install a new zebra crossing linking “Mill Wall” and “The Ropewalk”
- Install new lighting columns within the vicinity to highlight the new crossing for motorists.
- Re-locate the 20mph terminals south of its current location.
- Resurfacing works
