Consultation

KCC is proposing to install a Toucan Crossing on Burnham Road to help pedestrians and cyclists to cross the road outside 177-183 Burnham Road

Why do we need to make changes?

This scheme follows on from a feasibility study in 2016 that identified a need to improve in the Dartford area, the pedestrian and cyclist experience and reduce traffic speeds. Additionally, a need to provide a link for cyclists to National Cycle Route 1 to the north-west of the site on Thames Road has been identified.

In this particular location pedestrians and cyclists can struggle at times to cross the road safely due to the volume and speed of traffic.

What are we proposing?

- Install a new shared pedestrian and cycle - Toucan Crossing linking the south-west and north-east sides of Burnham Road outside buildings 177-183
- Install new traffic signals to highlight the new crossing and control traffic at the crossing point.
- Removal of an existing informal uncontrolled crossing facility including a pedestrian island.
- Resurfacing works.

Have Your Say:

We want to hear your views. This consultation will run from Monday 30th January 2017 to Sunday 26th February 2017. This information can also be found by visiting www.kent.gov.uk/highwaysconsultations.
Consultation, Burnham Road, Proposed Toucan Crossing 30th Jan – 26th Feb 2017

Next Steps

We are intending to start building the crossing towards the end of March 2017 and depending on weather conditions should take approximately 3 to 4 weeks to complete.
